## Napa Nectar™ Water Gels

This widely used water gel is an ideal solution to laboratory animal watering where cost saving, or immediate hydration is required.

Napa Nectar Plus comes with added fenbendazole, making it useful to help eliminate pin worm infections.

-  Available in two sizes: 226g and 113g.
-  Packed in a disposable, inert plastic pouch.
-  Ideal for shipping.
-  Post-operative.
-  Alternative to water bottles.
-  USDA approved ingredients.
-  Moisture content 99.54% by volume.
-  Non-refrigerated shelf life of 24 months.
-  Optional pack with added fenbendazole.
