Introducing Self-cleaning touch points

Nanoselfclean Self Cleaning Door Pads are the best Door Handle Protectors in the UK, all of the Self Cleaning Door Pads are manufactured in UK. The new Antibacterial Door Handle Covers can help protect from transmission of viruses (including coronavirus) & bacteria from person to person, The Self Cleaning Door Handle can be placed on any type of doors and work by Self Sanitising the Door Handle using an Antimicrobial Self Cleaning Coating.

Each touch point can last up to **3 months** and are available in many different sizes!

Please get in contact for more information, sizes and prices!

We are updating regularly with new and exciting products!
