Introducing Puralife Clean Skins

Puralife Clean Skins™ offer a host of benefits to all stakeholders. Use our innovative products to help stand apart from the competition with a hygiene-first approach.

- Inhibit the growth of microbes by up to 99.99%
- Reduce the load of contamination-causing bacteria on surfaces
- Provides a second line of defence against harmful bacteria
- Works 24/7
- Does not contain nano particles
- Safe for all environments
- Puralife® Clean Skins™ should be cleaned regularly like any other surface

HOW IT WORKS

Biomaster® the world's leading silver ion additive is embedded into Puralife® Clean Skins™. Carefully produced using a proprietary Touchpoint® manufacturing process and accredited under medical grade BRC AA standards, this product is the gold standard in 24/7 antimicrobial action that's been perfected over years of research and development. Puralife® Clean Skins™ use a three-step process to fight bacteria landing on a surface:

- Prevents bacteria from growing
- Prevents bacteria from producing energy
- Prevents bacteria from replicating

Long lasting, durable and highly active, our product is non-toxic and safe to use in a range of environments. Silver ion technology has been used around the world for centuries in the fight against contamination.

Available in different sizes to suit your needs, get in contact for more information.
