

Introducing Our New LBS Nesting Cups

Dose controlled nesting material for laboratory animals. Made from fine kraft paper in preformed portions.

- Nesting cups are manufactured using high quality, food grade, fine kraft paper.
- Ready for use straight out of the box.
- Preformed Nesting cups are available in 4, 6, 8, 10 & 12gm sizes.
- You know the fixed costs per cage with each use.
- Developed to mimic natural nesting materials, such as thin stemmed grass.
- Ensures that mice can fulfil their natural instincts.
- Helps mice with their thermoregulation and reduces stress.
- Analysis available
