

TRAYLINERS

We offer the largest selection of cage and pan liners in the industry for non-contact applications

- **Techboard** – Untreated technical-grade DACB without the antibiotic neomycin.
- **Techboard Ultra** - An improved, super-absorbent white cage board for less frequent changings.
- **Techsorb** - An untreated animal cage board of exceptional absorbing more precise control of variables.
- **TechElite** - The most economical white cage board available.
- **Poly Pads** - Multi-layer all-purpose liners for zero leakage, maximum economy and elimination of dust.
- **Dura Pads** - A combination of multi-ply cellulose wadding and moulded indented paper for superior absorbency and less bulk.

Need help deciding which liner is right for you? Check on the animal below for our recommended liner.

	Mice	Rat	Rabbits	Birds	Primate
