

## ASPEN-BALLS

New to our range of Aspen Enrichment product is our Aspen Balls.

LBS are pleased to present this new product to our range of Aspen Wood enrichment solutions. Suitable for use in research establishments all are provided with batch numbering and accompanying certificates of analysis.

These 30mm Aspen Balls are made for purpose from fresh cut virgin aspen wood derived from renewable resources. Their unique spherical shapes added an added dimension of enrichment to the traditional wooded chew block.

As with all our aspen enrichment these are just tough enough to chew and gnaw helping animals to satisfy their natural instincts and exercising teeth and gums for promoting dental health.

- Natural Aspen Wood
- 30mm sphere-shaped
- Added dimension of enrichment
- Helps promote activity and reduce boredom and aggression
- Clean and safe
- Autoclavable
- Batch numbered with COA
- Easy to use
